The Story

Jason’s father died when the author was a 16-year-old junior in high school. The experience left him lonely, confused, and isolated. A series of power experiences taught him a lesson he’s never forgotten. *You are not alone!*

Students will be immersed in Jason’s stories that are personal, emotional, and most importantly to audiences — *true*. They will be invited to think differently about one another and to look for opportunities every single day to help someone take off the blindfold and headphones and see the help that surrounds us. As in his other presentations, this program is highly-interactive and features two student-led object lessons that are unforgettable.
